

Partnering for the Future: Exploring Strategic Partnerships for Sustainable Growth and Development for Agriculture, Engineering, Education, Healthcare, and Aviation Projects in Rural and Urban Communities.

STATEMENT OF CAPABILITY

Introduction

We are a working group of professionals and firms committed to contributing our expertise to build connections between global best practices and local opportunities. We are excited to collaboratively explore opportunities to align our expertise with your priorities and vision for sustainable growth and development.

Experts

Economics

Gloria Bromell Tinubu, Ph.D.

CEO/Owner of GBT Associates LLC, an economic, education, and engineering consulting firm, with associates in healthcare and aviation, we specialize in empowering underserved, under-resourced, and environmentally stressed communities. Founder of the Institute for Community Economists designed to build the capacity of everyday people to transform their local economies, she has over 40 years of experience as an applied and agricultural economist. She earned her master's degree in agricultural economics (rural community development) and her doctorate in applied economics (natural resources) from Clemson University, and a bachelor's degree in fine arts from Howard University. A former public official, she served in the Georgia General Assembly, the Atlanta City Council, and the Georgia Board of Education. Formerly a college president, department chair, and tenured professor, she is currently Research-Extension Associate Professor of Community Economics at Tuskegee University.

Engineering

Adeoye "Soji" Tinubu, P.E.

Senior VP of GBT Associates, brings over 40 years of senior management experience in program and contract management, project management, construction management, engineering design, and project controls. Throughout his 35-year career with WSP|Parsons Brinckerhoff, he advanced to increasingly responsible roles which culminated in him serving as Director of LRT Engineering/Chief Engineer to the Toronto Transit City Light Rail Transit Plan, the largest project (\$14 Billion) in North America in 2010, according to Metro Magazine (June 2010). He received a diploma in civil engineering from the Polytechnic-Ibadan, Nigeria and holds a bachelor of science in civil engineering from Tri-State/Trine University, a master's of science degree in civil engineering from Clemson University, and undertook graduate studies at Georgia Institute of Technology.

Education

Titilayo Tinubu Ali, J.D.

Titilayo Tinubu Ali is an education consultant who brings almost two decades of expertise at the intersection of research, policy, and philanthropy. She has led transformative work on early childhood education, school improvement, digital literacy, career pathways, assessment, and the educator workforce, with a focus on advancing equitable access to high-quality education. She is the co-author of two books, *On the Road to High-Quality Early Learning: Changing Children's Lives* and *Disrupting Disruption: The Steady Work of Transforming Schools*. She earned a bachelor's degree in English from Spelman College, a master's degree in sociology of education and education policy from Teachers College, Columbia University, and a J.D. from the University of California, Berkeley School of Law.

Healthcare

Emma Fakiya, DrPH, MPH, Msc, RN

Chief Program Officer of ORET Healthcare Enterprise, brings over 30 years of experience in primary health systems, maternal and child health, public health leadership, and nutrition. As the first Procurement and Training Officer for the World Bank Health System Development Project in Ekiti State, she trained 500+ health workers, upgraded 16 basic health centers to comprehensive primary healthcare centers (PHCs), and procured 16 ambulances. As Head Nutritionist for the Ministry of Health in Ekiti State, she partnered with UNICEF and WHO to increase exclusive breastfeeding to 75%, designate 20 hospitals and 30 health centers as baby-friendly, and establish food demonstration, early childcare, and community growth monitoring centers. With 10+ years of experience in maternal and child health nursing, she earned her doctorate and master's degrees in public health from Walden University, a master's and bachelor's degrees in human nutrition from the University of Ibadan, Nigeria, general nursing training at University College Hospital, Ibadan, and nurse-midwifery training at Ile-Abiye School of Midwifery, Ado-Ekiti.

Morayo Fakiya, MD, MHA, CPHQ, CPPS, CLSSBB

Founder and CEO of ORET Healthcare Enterprise, a dual board-certified physician in internal and obesity medicine with over 15 years of experience in clinical care, skilled in data-driven healthcare outcomes optimization. Her expertise spans quality improvement, patient safety, healthcare administration, risk management, and health information management. As a Lean Six Sigma Black Belt for over 10 years, she reduced heart failure readmissions by 47% in five months, decreased clinic wait times by 53% in three months, increased obesity screening compliance by 62% in five months, and improved colon cancer screening referrals by 26% in four months. Before founding ORET Healthcare, she was the inaugural Director of Quality Improvement and Patient Safety at Howard University Hospital and an Assistant Professor of Medicine at Howard University College of Medicine. She completed her internal medicine residency training at Boston University/Boston Medical Center, earned her medical degree from Howard University, a master's degree in healthcare administration from the University of Maryland, and bachelor's degrees in biology and chemistry from Marymount College of Fordham University.

Tomi Kolade, MD, MSHI, MCSO

CEO of CareCraft LLC, he drives innovation in healthcare digitization, software implementation, and operational excellence. With over 15 years of expertise in healthcare technology, mergers and acquisitions, and process improvement, he delivers scalable, value-based solutions. He earned his MD from the University of Ibadan, Nigeria, and advanced degrees in Health Informatics from the University of South Florida and Clinical Service Operations from Harvard Medical School. His leadership empowers healthcare organizations to enhance performance, patient engagement, and sustainable growth.
